

Date: July 2010

Application: Telescopic Mast for Extreme Environments

Travel: 10 ft (3.0 m)

Extended Height: 15 ft (4.6 m)

Speed: 60ft/min

Chain Type: 40PSG2000

► Project Description:

- Telescopic Mast for a government security operation. This is a low-cycle application, but the mast will be exposed to desert heat, wetness, sand, ice and freezing conditions. An insulation/heater package is included within the magazine, as the temperature ranges from -40°C (-40°F) to +70°C (158°F). At low trim, the system is five feet (1.5 meter) tall, with a total stroke of 10 feet (3.0 meters), fully extended the mast reaches 15 feet (4.6 meter).
