

## Change in top management the SERAPID GROUP

*Rouxmesnil-Bouteilles, 11 January 2018*

The SERAPID Group develops, manufactures and supplies horizontal and vertical load transfer systems based on Rigid Chain Technology (RCT) across a wide range of industries.

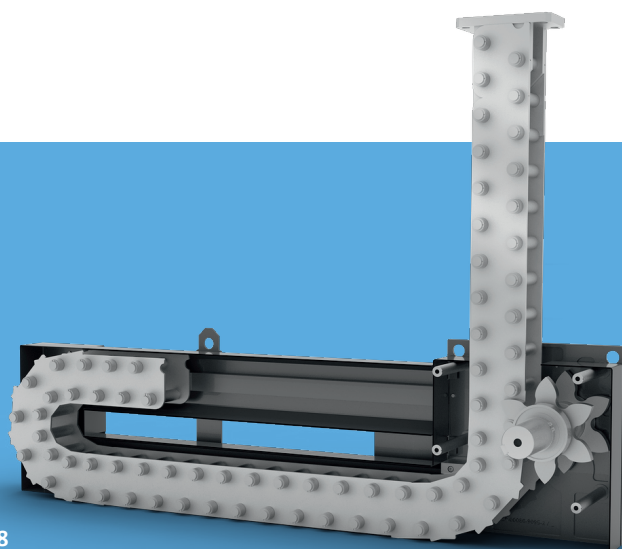

Thanks to the trust of its customers and the good work commitment of its team, The SERAPID Group has become one of the leading manufacturers in its market segment during its 45 years of existence.

After 30 years at the helm, Saïd LOUNIS has sold The SERAPID Goup to Emeric LABESSE and Guillaume DAVIES, who serve as CEO and COO, respectively; and are backed by LBO France, one of France's leading private equity companies. Mr. LOUNIS has retained an investment in The Serapid Group.

Their ambition is to continue the development of the company based on the fundamentals that have made SERAPID a success: innovation, competence, and the excellence of its team.

*Interview of leaders on request*
